

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Application No.: 10/586,014

Confirmation No.: 9330

Applicant(s): Paul Oommen

Filed: 07/14/2006

Art Unit: 2131

Examiner:

Title: Techniques for Updating Security-Related Parameters
for Mobile Stations

Attorney Docket No.: 873.0168.U1(US)

Customer No.: 29,683

Commissioner For Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Supplemental Information Disclosure Statement

(37 C.F.R. §1.97(b))

Sir:

The following information is being disclosed to the U.S. Patent and Trademark Office as information that may be material to the examination of the above-identified patent application. Please charge deposit account no.: 50-1924 for the IDS fee of \$180 in accordance with 37 C.F.R. §1.17(p).

Applicant's Attorney is aware of the documents listed on the enclosed Form PTO-1449. Copies of the non-US documents are enclosed with the Form PTO-1449 for the Examiner's use.

The specification of the instant application, at p. 1, lines 26-29, states: "The IS-683 standard (e.g., IS-683-A and later revisions) is entitled 'Over-the-Air Service Provisioning of Mobile Stations in Spread Spectrum Systems'

09/15/2009 MBELETE1 00000013 501924 10586014

01 FC:1806 180.00 DA

(1998), the disclosure of which is hereby incorporated by reference." The specification of the instant application, at p. 6, lines 22-26, further states: "Suitable signaling protocols are described in sections 2.2 (describing signaling using an analog transport protocol) and 2.3 (describing signaling using a CDMA transport protocol) of C.S0016 Over-the-Air Service Provisioning of Mobile Stations in Spread Spectrum Systems, 3GPP2 (Mar. 2003), the disclosure of which is hereby incorporated by reference."

Upon further review, it is believed that the two above-identified references are instead both referring to "Over-the-Air Service Provisioning of Mobile Stations in Spread Spectrum System", 3rd Generation Partnership Project 2, 3GPP2, Document C.S0016-0, December 1999, pages 1-118. As such, this document is included in the attached Form PTO-1449, and is believed to correspond to the two above-noted references that were originally identified in the specification.

The filing of this Statement is not to be construed as a representation that a search has been made regarding the claimed invention (37 C.F.R. §1.97(g)) or that no other possible material information exists. In addition, the filing of this Statement is not to be construed to be an admission that the information cited in the Statement is, or is considered to be, material to Patentability (37 C.F.R. §1.97(h)).

Respectfully submitted,

Alan L. Stern (Reg. No. 59,071)
